*Introduction (Emberger) **

G. Emberger welcomes the participants and opens the meeting.

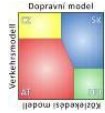

*Progress report CZ (Malina, Šenk) **

P. Malina explains the structure of the CZ model and the trip generation. P. Šenk talks about trip distribution, mode choice and assignment, calibration and a possible scenario.

*Progress Report AT (Leth) **

U. Leth reports about the AT progress – the merging of the networks and demand models and the encountered problems.

*Network (Leth) **

U. Leth presents the Final Network covering Vienna, Lower Austria, Burgenland, parts of Styria, South Moravia, Bratislava, Trnava, Győr-Moson-Sopron, Vas and Zala.

*Assignment (Ondráčková) **

J. Ondráčková presents the assignment of the generated traffic on the network and a modeled scenario.

Break

*BRAWISIMO (Leth) **

Due to a collision of appointments R. Kirnbauer could not join the ABM and report from the BRAWISIMO project. U. Leth gives some basic information about the project and the time frame.

*ERRAM (Friedwagner) **

A. Friedwagner presents the ERRAM project dealing with the computation and evaluation of accessibility in the CENTROPE region.

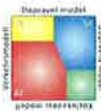

*Conclusions & Outlook (Emberger) **

G. Emberger thanks all participants for the interesting discussions, emphasizes the importance of basing decisions on expensive infrastructure on solid model results, and invites the Advisory Board Members to approach the project team with further tasks.
